EMBRACE THE SIMPLICITY

TRANSFORM YOUR ROOM IN A SINGLE DAY

Luxe Plank™ is so easy to install, you can make over your basement, bathroom, laundry room or kitchen in mere hours. There's no extensive preparation – you can even install it over existing vinyl or tile. And with no messy glue to wait for, you can enjoy your new floor right away.

So go ahead. All it takes is Luxe Plank, a can of paint, and a little imagination to take any room from lackluster to luxurious in just one day.

INSTALLING IS AS EASY AS 1-2-3

Lynx™ Technology, with its exclusive pressure-sensitive adhesive, makes Luxe Plank™ incredibly versatile and simple to install. Because each plank attaches to the planks beside it – not the floor beneath it – you can install it quickly and easily, over practically any surface in your home or business. All it takes are 3 simple steps:

STEP 1: Start with a clean, dry surface. No preparation or glue is necessary.

STEP 2: Peel off the paper liner to expose the Lynx Technology adhesive and place the plank on the floor.

STEP 3: Place additional planks, overlapping the adhesive strips to attach each plank to the planks beside and above it. To secure, press down on the edges.

To trim, simply score a plank with a utility knife and straight edge and snap it apart.

If you make a mistake, simply pull up the flexible Luxe Plank and reposition it within the set time without affecting the rest of the floor.

LYNX TECHNOLOGY

The key to the simplicity and versatility of Luxe Plank installation is our exclusive Lynx Technology. Lynx Technology is the most flexible and forgiving floating floor installation system available, allowing you to remove and reposition planks while maintaining the integrity and appearance of the installation.

Lynx Technology ensures your Luxe Plank floor will look as beautiful as the day you installed it, for years to come. And because it's from Armstrong, you have the same peace of mind generations of homeowners have enjoyed with our products.
